The following changes to the drawings have been approved by the examiner and agreed upon by applicant: The insulation and conductor materials will be illustrated as denoted on the enclosed drawing correction. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance: This invention deals with an audio signal cable comprising a signal multiple core conduit and a return multiple core conduit having equal diameter, wherein the signal and return conduits, each comprise individually insulated larger solid conductors, individually insulated smaller solid conductors, and individually insulated tinsel wires of distinct sizes, wherein a filler element is disposed laterally along the signal and return multiple core conduits (claim 1). The above stated claim limitations, along with other claim limitations, is not taught or suggested by the prior art of record

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

4. Applicant's arguments filed June 24, 2005 have been fully considered and they are persuasive. Specifically, the applicant's argument that "... it is quite clear that Harrison, nor any of the cited prior art, disclose all of the limitations in the Applicant's newly submitted claim 6", is persuasive and therefore the claims have been allowed.
